## Summary

---

Front-End Developer with 7+ years of experience building responsive and accessible web applications. Skilled in HTML, SCSS, JavaScript (including React and Svelte), and PHP. Proven success delivering modern, effective websites for B2B clients and startups. Familiar with cross-functional collaboration in distributed teams and passionate about user experience, design, and continuous learning.

## Key Technologies

---

**Frontend:** HTML5, CSS3, SCSS, JavaScript, TypeScript, React, Svelte, Angular

**Backend:** PHP, SQL, REST APIs, Stripe Integration

**Tools:** Git, Adobe Photoshop, Adobe XD, Vite

## Professional Experience

---

### Front-End Web Developer

*Fortem International - Bristol, UK | Jan 2018 - Dec 2024*

*Took voluntary redundancy for a year during COVID-19*

- Developed and maintained a suite of 30+ websites for global B2B events
- Built modular, reusable components and layouts using SCSS, HTML, and Vanilla JS
- Prioritized performance, accessibility, and cross-browser/device compatibility
- Collaborated with UX designers, product managers, and back-end developers to meet tight deadlines
- Maintained internal systems and company intranet tools

### Freelance Web Developer

*Bristol, UK | Ongoing*

#### Whip-it

- Built full site including secure login system, DVLA API integration, Stripe payments, and Appointment scheduling
- Developed back-end features in PHP, built front ends with HTML/CSS/JS/React

### Car Connect (Company since sold)

- Built full site including custom CMS, AutoTrader API integration, user dashboard
- Designed and built intuitive UI with API and DB integration, including features such as a 'favourites' system

## What I Bring to the Table

---

- **Modern JavaScript frameworks:** I have built several projects using both React and Svelte.
- **Core Front End Knowledge:** I have years of hands-on experience with core front end technologies, having built complete web applications using HTML, SCSS, JavaScript (Angular, React, Svelte), PHP, and SQL.
- **Strong problem-solving skills:** I have engaged in challenging freelance projects where I was required to learn new skills and solve complex challenges in order to meet the client's needs.
- **SQL Experience:** Confident in using SQL to enhance site functionality through database integration and querying.
- **Curious & Growth-Oriented:** I'm always learning: recently diving deeper into Svelte and Node.js. I love to increase my knowledge by taking on new challenging projects.
- **Remote-Ready, Team-Ready:** I'm based in the UK and thrive in collaborative environments. I'm proactive in communication and documentation, and genuinely enjoy solving problems as part of a supportive team.
