Professional Experience

Front-End Web Developer

Fortem International – Bristol, UK | Jan 2018 – Dec 2024
Took voluntary redundancy for a year during COVID-19

- Delivered front-end development for a portfolio of 30+ B2B event websites
- Built reusable components and scalable layouts using modern HTML/CSS/JS practices
- Focused on accessibility, mobile responsiveness, and cross-browser performance
- Collaborated closely with design, marketing, and operations teams to align development with business goals
- Maintained internal systems and company intranet platforms

Freelance Web Developer

Bristol, UK | Ongoing
Whip-it (Live Project)

- Built full-stack architecture, including DVLA API, secure user auth, Stripe integration, and Appointlet bookings
- Developed mobile-optimized, performance-driven and scalable UI.

Car Connect (Company since sold)

- Created front-end UI and custom CMS; integrated AutoTrader API and booking features
- Led project from design and architecture to full deployment and hosting
